

## Hospital environment

VITA is a specialised centre for **reproductive medicine** formed by a talented and experienced multidisciplinary team of recognised prestige.

We provide you with all our resources, knowledge and experience with the entire scientific rigor required to make this special journey as easy and rewarding as possible.

At VITA we take care of every detail and pride ourselves on giving a personal and caring touch and personalised treatment. We are always close to you for your peace of mind.

VITA belongs to the **IMED Hospitals group**, which was created to develop a network of healthcare centres offering the highest quality of care.

The **IMED HOSPITALES** project is based on 3 fundamental pillars:

- Personalised health care and the highest quality standards.
- A firm commitment to build hospitals with the best facilities and cutting edge medical technology.
- A first-class medical and professional team.

VITA has the guarantee  
of **IMED Hospitales**.

## Treatments and IVF

### FERTILITY TREATMENTS

We offer the full range of reproductive medicine treatments:

- Fertility clinical studies.
- Intra-uterine Insemination.
- In Vitro Fertilisation (IVF).
- Intracytoplasmic Sperm Injection (ICSI).
- Preimplantation Genetic Diagnosis (PGD).
- Alternative parenting: Shared motherhood method (ROPA technique).
- Fertility preservation (egg vitrification).
- Donor embryo adoption.
- Egg donation programme.

“ We had a problem to be able to have children, and after browsing the internet for several clinics, we decided to choose the fertility treatments offered by [VITA Reproductive Medicine](#), within the IMED Hospitals group we already knew.

They live the experience as if it were theirs. They help you live each unique and special moment. This has been very important to us. [They are helping us to fulfil our lifetime dream](#), which we thought to be unachievable and now it is becoming a reality. The experience is marvellous.

Susana , Alicante
